UNITED STATES
DEPARTMENT OF THE INTERIOR
BUREAU OF LAND MANAGEMENT
WASHINGTON 25, D. C.

June 1, 1962

Instruction Memo No. PL-5
Expires 12/31/62

To: Directorate
Division Chiefs
State Directors
Land Office Managers
District Managers

From: Director

Subject: Statistical Appendix Handbook.

This Handbook supercedes the one published in July 1961. The Handbook contains instructions and sample tables to be followed by the Washington, State, Land and District Offices when preparing tables for publication in the Statistical Appendix. As its full title indicates, the document is an appendix to the Annual Report of the Director. It should contain the detail, primarily in statistical form, which enables us as directors and managers to review each and every aspect of our operations and programs annually. Furthermore, as a printed publication which receives wide distribution to members of Congress, educational and research institutions, private industry and individual citizens, the Statistical Appendix helps fulfill our responsibility, as a government organization, to provide a permanent public record of our actions and how they have affected the public lands and resources under our jurisdiction.

Appendices published in prior years have provided valuable information to those both within and outside government. Data found in previous appendices furnish one of the most composite pictures of our public land history in existence. They may be and have been the bases for many analyses of the history of management, development, conservation and administration of our vast natural wealth. These analyses in turn may assist us in improving our policies, evaluating our progress and, in general, keeping our operations turned to the needs of the country in pace with the rapid changes that characterize our time.

I look to the Statistical Appendix, as many others do, as the one official source of the types of data it contains. The importance of integrity and accuracy in its compilation and preparation cannot, therefore, be over-emphasized.

J. M. Hochmuth

Acting Director

GEN INSTRUCT

GENERAL INSTRUCTIONS

STYLE

Public Land Statistics ^{Annually} is printed by the Government Printing Office, and the GPO style manual is the official guide for questions on style that are not specified or illustrated in this handbook. All Bureau offices that originate or process contributions to the Public Land Statistics will use the style and tabular format as designated in this handbook. Deviations will not be accepted.

ACCURACY AND INTEGRITY

Since the Public Land Statistics serves as the one and only official source document for the types of data it contains, both for use within the Bureau and for other government agencies, Congress and the public at large, then integrity and accuracy deserve and must be given first consideration. The integrity of data as it appears in the published document essentially depends upon two factors: First, pains taken by creators or originators of the figures that contribute to or are identifiable in the final publication to insure that the data are the best available and reflect true conditions as nearly as possible; second, that processors and consolidators of the original data are equally meticulous in compiling and checking tabular data they send forward to insure that original integrity is not threatened by arithmetic error.

Arithmetic accuracy also affects time schedules at successive levels of processing within the Bureau. The tight schedules established at the point of final preparation for submission of Public Land Statistics to GPO require that the first submission of data by any level be arithmetically correct. Therefore, processors and consolidators will machine check each final table before forwarding to the State and/or Washington offices for processing. Columns should be added across as well as down, wherever possible. This serves as a double check. EACH WASHINGTON STAFF OFFICE THAT ORIGINATES OR CONSOLIDATES TABLES SHALL ATTACH THE ADDING MACHINE TAPES TO THE TABLES SUBMITTED TO THE DIVISION OF PLANNING. Simple mistakes in arithmetic frequently cannot be dependably reconciled by the receiving office. All submissions received which contain such errors will be returned to the originating office for correction.

FOOTNOTES

Use numerals, not letters, to designate footnotes in tables. Keep the quantity and length of footnotes used in any table to a minimum. Do not footnote table titles. If a footnote that applies to the entire table is required, insert it in the lower margin of the paper beginning two spaces below the body of the table, and designate it with the term

“Note.”

Numbering of footnotes should be horizontally, from left to right, in the body of ~~the~~ table. Use a different and sequential number for each new item that is to be footnoted in a table. Footnote designations in the body of a table are to be placed after or following terms and phrases, but before or preceding numbers.

Example: State cessions ^{44/}
but
^{21/} 22,463,517.25

Do not use footnotes as an index for other tables:

Example: ^{51/} For homestead patents by type of homestead,
see table 24.

^{42/} For area conveyed to United States by type
of exchange, see table 25.

SUBMISSION SCHEDULE AND PROCEDURE

Field Offices - General

State Directors and the Chief, Division of Field Services will provide submission schedules and other instructions as necessary to the Bureau offices under their jurisdiction to enable orderly compliance with the schedule specified herein for State and Division of Field Services submissions to the Director.

States and Division of Field Services

States will airmail all tables in one package to the Director's Office, Attention: 6.06b. The complete State and Division of Field Services' submissions due in the Director's Office for Public Land Services will be sent in a one-time submission. Each group of tables will be sent under a cover memorandum addressed to the Director, Attention: 6.06b. This memorandum will contain a listing of each table transmitted by table number designated in the Handbook. Omission of any table due will be fully explained in the transmittal memorandum.

^A SUBMIT A TABLE FORMAT FOR EACH TABLE REQUIRED. IF THERE IS NO DATA FOR ~~THE~~ TABLE, INDICATE "NONE" ACROSS THE BODY OF THE TABLE.

ALL TABULAR SUBMISSIONS DUE FROM THE STATES AND DIVISION OF FIELD SERVICES WILL BE SUBMITTED IN TIME TO REACH THE DIRECTOR NO LATER THAN JULY 30 OF EACH YEAR.

RECORD SOURCE

Source(s) from which figures in table(s) were derived should be shown as the last item on the page of copies only, (not the original) under Footnotes, if any. The source(s) should be correctly and adequately identified. Give name of record(s) and form number(s), if any. This information must be complete.

Example: Record Source:
Adjudication records, 4-0000
trespass records; timber sales
records, 4-0000; grazing lease
records; field survey records,
etc.

SECTIONAL SUMMARY ANALYSES

State offices are not ordinarily required to write and submit analyses of data shown in the tables they prepare and send to the Director's Office. HOWEVER, WHERE ANY GREAT CHANGE OCCURS IN FIGURES OVER THE PRECEDING YEAR AN EXPLANATION SHALL BE MADE IN A SEPARATE MEMORANDUM FOR EACH TABLE. AN ORIGINAL AND TWO COPIES OF THESE MEMORANDA WILL BE PREPARED. Definitions of terms printed in the published

Land Statistics

~~Statistical Handbook~~ are included in the Handbook for the information of all those who collect, compile and contribute data for the appendix.

Public

Public

GRAPHIC PRESENTATION OF DATA

The Division of Planning in the Director's Office will be responsible for converting data contained in selected tables or groups of tables to graphic form. These graphs will be prepared in a style and quality which will explain the illustrated data clearly, and be suitable for publication in the appendix. Field offices are not required to convert any of the statistical data they submit for the

Land Statistics

to graphic form. ~~appendix~~ Public

PART 1

THE FEDERAL LANDS

Summary

1. The summary is to be a brief analysis of the statistical data found in PART 1 as they relate chiefly to the Bureau's program. (See PART 1 of Public Land Statistics for an example of the type and style of summary referred to here).
2. This written analysis must be limited in length to one side of one typewritten page.
3. Type each paragraph using single spacing, and double-space between paragraphs. Use standard margination.
4. Capitalize the words PART and THE FEDERAL LANDS in the heading. Use arabic numerals to designate the part number.
5. Indicate the table number or numbers in which data cited in the body of the analysis appears, at the end of the sentence or paragraph in which the data are cited, using parentheses, show the appropriate table number, i.e., (table 67).
6. The summary analysis should not be written until the compilation of tables in PART 1 has been completed.
7. The Chief, Division of Planning in the Director's Office will be responsible for writing the summary analysis for PART 1 of the Public Land Statistics by September 15th of each year. ?

Definitions of terms

(A list of selected terms found in various tables in PART 1 will be defined and printed immediately following the summary analysis).

Acquired land

Land in Federal ownership which are not public lands as defined below, acquired lands having been obtained by the Government through purchase, condemnation or gift, or by exchange for purchased, condemned or donated lands, or for timber on such lands.

Disposition

A transaction which leads to the transfer of title of public lands, and/or resources upon or in these lands, from the Federal Government.

Inland water area

Includes permanent inland water surface, such as lakes, ponds, and reservoirs, having 40 acres or more of area; streams, sloughs, estuaries, and canals 1/8 of a statute mile or more in width; deeply indented embayments and sounds, and other coastal waters behind or sheltered by headlands, or islands separated by less than one nautical mile of water, and islands having less than 40 acres of area.

Land area

Includes dry land and land temporarily or partially covered by water, such as marsh land, swamps and river flood plains; streams, sloughs, estuaries, and canals less than 1/8 of a statute mile in width; and lakes, reservoirs, and ponds having less than 40 acres of water surface area.

National forest

A designated area of reserved Federal land, set aside for timber, watershed or a variety of purposes determined by the national resource values involved, and administered and managed by the Forest Service in the U. S. Department of Agriculture.

O & C lands

Public lands in western Oregon which were granted to the Oregon Central railroad companies (later the Oregon and California Railroad Company) to aid in the construction of railroads, but which were later forfeited and returned to the Federal Government by revestment of title. The term "O & C lands" as often used includes reference also to the reconveyed Coos Bay Military Wagon Road lands, which are public lands in western Oregon that were once granted to the State of Oregon to aid in the construction of the Coos Bay Military Wagon Road, but were later forfeited and returned to Federal ownership by reconveyance.

Table 1. - Areas of States, 19--

A. Originating office

1. The Division of Planning in the Director's Office will prepare a table according to the format given in sample table 1 every 10 years. (During intervening years the same table will be used each year).

B. Reporting period

1. This table covers a 10 year period. It is changed whenever a new census is taken.

C. Source

1. The figures for this table are obtained by written request to the Bureau of the Census, U. S. Department of Commerce every 10 years.

Note: The last census was taken in 1960.

TABLE 1. - Areas of States, 1960

Table 3. - Disposition of public lands, 1781 to 19--

A. Originating office

The Chief, Division of Planning in the Director's Office will fill out a table (an original and two clear copies) according to the format given in sample table 3.

B. Reporting period

1. Figures for fiscal year just ended are added to existing table to make it current.

C. Source

1. Table 4, Grants to States, 1803 to 19-- and Table 17, Patents issued, 19-- for the current year just ended will be used to compile Table 3.

SAMPLE

TABLE 3. - Disposition of public lands, 1781 - 19

| Type of disposition | Acres |
|---|-----------------------------------|
| Disposition by methods not elsewhere classified 1/----- | (Obtain from T. 17) |
| Granted or sold to homesteaders 2/----- | (<i>data</i>) |
| Granted to States for: | (Obtain from T. 4) |
| Support of common schools----- | |
| Reclamation of swamp land----- | |
| Construction of railroads----- | |
| Support of miscellaneous institutions 3/----- | (Other Acts - Other institutions) |
| Purposes not elsewhere classified 4/----- | (Other and Miscellaneous) |
| Construction of canals----- | |
| Construction of wagon roads----- | |
| Improvement of rivers----- | |
| Total granted to States----- | |
| Granted to railroad corporations----- | (Obtain from P. 17 - RR Trans.) |
| Granted to veterans as military bounties----- | |
| Confirmed as private land claims 5/----- | |
| Sold under timber and stone law 6/----- | |
| Granted or sold under timber culture law 7/----- | |
| Sold under desert land law 8/----- | |
| Grand total----- | |

- 1/ Chiefly public, private, and preemption sales, but includes mineral entries, scrip locations, sales of townsites and townlots.
- 2/ The homestead laws generally provide for the granting of lands to homesteaders who settle upon and improve vacant agricultural public lands. Payment for the land is sometimes permitted, or required, under certain conditions.
- 3/ Universities, hospitals, asylums, etc.
- 4/ For construction of various public improvement (individual items not specified in the granting acts), reclamation of desert lands, construction of water reservoirs, etc.
- 5/ The Government has confirmed title to lands claimed under valid grants made by foreign governments prior to the acquisition of the public domain by the United States.
- 6/ The timber and stone laws provided for the sale of lands valuable for timber or stone and unfit for cultivation.
- 7/ The timber culture laws provided for the granting of public lands to settlers on condition that they plant and cultivate trees on the lands granted. Payment for the lands was permitted under certain conditions.
- 8/ The desert land laws provide for the sale of arid agricultural public lands to settlers who irrigate them and bring them under cultivation.

Note. - Data are estimated from available records.

Table 4. - Grants to States, 1803 to 19-- (also 4a)

A. Originating offices

1. Land offices which write patents ^{*and the Patent Section, Division of Field Services*} will prepare a table according to the format in sample table 4a.

B. Processing, consolidation, and routing

1. Land offices will submit to the State office an original and one clear copy for the Director's Office, together with any copies required by the State office.
2. State Directors will check the submissions for accuracy and completeness, and forward the original and one clear copy to the Director's Office, attention: 6.06b.

3. The Patent Section, Division of Field Services will *submit an original and one clear copy to the Chief Division of Field Services for review and transmittal to the Director, attention: 6.06b.*

4. *The Patent Section, Division of Field Services will update table 4 after consolidating the table 4a's. The Patent Section will submit an original and one copy to the Chief Division of Field Services for review and transmittal to the Director, attention: 6.06b.*

C. Reporting period

1. The figures in table 4a ^{*are consolidated and*} ~~are~~ added to the previous year's table 4 to cover the period from 1803 through the fiscal year just ended.

| Total----- | | | | | | | | | | |

3/ Estimate

2/ Includes not more than 6,000 acres of land in Montana, North Dakota and Washington which were selected by a grantee of the State of Minnesota.

1/ Includes acreage of grants for "educational and charitable" purposes as follows: Idaho, 150,000; North Dakota, 170,000; South Dakota, 170,000; Washington, 200,000. Includes 600,000 acres granted to Oklahoma for charitable, penal and public building purposes and 250,000 acres granted to Wyoming for charitable, penal, educational and other institutions.

4/ Acreage grants for river improvement projects as follows: Alabama 800,016; Iowa, 311,312; New Mexico, 100,000; Wisconsin, 683,722. Grants for canals, 4,995,009 acres.

Note.-For additional information concerning these grants, see the Report of the Director, 1947 Statistical Appendix, pages 118-135; 1948, page 59; 1949, page 59; 1950, page 58; 1951, page 61; 1952, page 61; 1953, page 56; 1954, page 55; 1955, page 57; 1956, page 59; 1957, page 60; 1958, page 61, 1959, page 6; 1960, page 10.

Table 5. - Grant lands confirmed to States, 19-- (also 5a)

A. Originating offices

1. Land offices which write patents will prepare a table according to the format shown in sample table 5a.

B. Processing, consolidation, and routing

1. Land offices will submit to the State office an original and one clear copy for the Director's Office, together with any copies required by the State office.
2. State Directors will check the submissions for accuracy and completeness, and forward the original and one clear copy to the Director's Office, attention: 6.06b.
3. The Patent Section, Division of Field Services will prepare a table 5a (an original and one clear copy) and prepare a consolidated table 5 (an original and two clear copies) incorporating the figures from tables 5a into it.
 - a. The original copy of table 5a received from land offices will be transmitted to the Patent Section, Division of Field Services, by the Division of Planning.
 - b. One clear copy of table 5a and an original and two clear copies of table 5 (prepared by the Patent Section) will be submitted to the Chief, Division of Field Services. He will check the tables for accuracy and completeness, and forward the copy of table 5a and the original and two clear copies of table 5 to the Director's Office, attention: 6.06b.

C. Reporting period

1. Show grant lands confirmed to States for fiscal year just ended, according to the categories shown in sample table 5a and 5.

D. Special instructions

1. Add footnotes when applicable. (See table 5, Grant lands confirmed to States in the Statistical Appendix).

E. Source

1. Daily records of patents issued, giving type of patents, State, office, and serial number, acreage, and minerals reserved, if any.
2. Record of State grants which shows the acts authorizing such grants, whether patented or certified, giving the clear list number assigned to each type of grant. If patent is issued on the grant, the patent number is shown.

1. The Division of Planning in the Director's Office will prepare a table according to the format shown in sample table 10.

B. Reporting period

1. Table 10 covers the period for the fiscal year preceding the fiscal year just ended.

C. Special instructions

1. The public domain figure for BIM in table 10 should agree with the public domain figure for BIM in tables 8 and 9 and with the total vacant public land figure in table 11.

D. Source

1. Figures for the above table are extracted from table 9, Federally owned land, by agency and State, as of June 30, 19--.

1/ Does not include Indian trust properties.

Source: Reports Division, Central Office, General Services Administration

Table 11. - Public lands under exclusive jurisdiction of the Bureau of Land Management. (also tables 11a, 11b and 11c)

- A. Originating office(s) Several different types of offices in the Bureau contribute data which are eventually consolidated to make up table 11, according to the sample table shown here, that is printed in the published appendix. Some of these same data are also used to compile table 81.

1. In States in which there are established grazing districts:

- a. All district offices will fill out a table according to the format in sample table 11a, listing the status of lands within the district boundaries according to the various categories indicated in sample table 11a, by county.
- b. Land offices in these States will fill out a table as shown in sample table 11b for lands outside established grazing districts by county.

2. In States where there are no established grazing districts:

- a. Each land office having responsibility for these States will fill out a table according to the format shown in sample table 11b for lands not in established grazing districts, by county and by State.
- b. The Division of Field Services in the Director's Office will not fill out a table according to the format shown in sample table 11b.

Note: Although these instructions are quite specific, as to the originating office, for tables 11a and 11b, it is recognized that record keeping techniques may vary slightly in different States, districts and land offices. The objective is to obtain the most accurate acreage of various classes of land under BLM jurisdiction, or within grazing district boundaries, as it is possible to obtain, in the most economical manner, as of the last day of the fiscal year. It is important that special attention be given the compilation of these data, since they are used for many purposes, including the determination of distribution of receipts to States and counties; the funds matching responsibilities of States with regard to Federal Highway aid allocations, etc. Therefore, each State will be responsible for determining the allowable deviations from procedure stated here according to the variations in record keeping at the land offices and district offices within their jurisdiction.

B. Processing, consolidation, and routing

1. District offices and land offices will submit an original

and one clear copy for each of tables 11a and 11b to the State office, together with any copies required by the State office. The Division of Field Services in the Director's Office will submit an original and one clear copy to the Chief, Division of Planning.

2. The State office will check the submissions of the district and land offices for arithmetic accuracy and eliminate any duplication in reporting by county. The State will prepare an original and one clear copy of table 11 (see sample format) using tables 11a and 11b submitted by the district and land offices to prepare it. The data in the "LU" column should agree with the "LU" column in table 81, Area and status of land within grazing districts. (Subtract "Total" "LU" column table 11b, from "Total" "LU" column table 11). The figures for the Unperfected entries pending column should be obtained by subtracting the number of acres for each State in the "Reclamation" column of table 34, Unperfected homestead entries pending from the acreage for the same State in the "Total" column of table 33, Unperfected entries pending.

- a. The State office will transmit the following number of copies of tables 11a, 11b and 11 to the Director, attention: Chief, Division of Planning:

| <u>Table Number</u> | <u>Compiled by</u> | <u>Number of copies</u> |
|---------------------|--------------------|---------------------------|
| 11 | State office | 1 original & 1 clear copy |
| 11a | District offices | 1 original & 1 clear copy |
| 11b | Land offices | 1 original & 1 clear copy |

3. The Division of Planning will compile a total Bureau table (an original and two clear copies) according to the format shown in sample table 11, listing State totals only, for publication in the Statistical Appendix.
4. The Division of Planning will compile a table according to the format in sample table 11c separately for each State by district and individual county breakdown, using the tables 11a, 11b, and 11 submitted by the States and the Division of Field Services to obtain the data. Submit an original and five clear copies to the Accounts Section, Budget and Finance Division in the Director's Office. One copy shall be retained in the Division of Planning files for reference purposes.

C. Reporting period

1. Data in these tables should reflect the situation on June 30 for the fiscal year just ended.

D. Detailed instructions for compilation of tables 11a, 11b, and 11.

1. Table 11a - Status of lands within grazing districts, 19--

a. Column 1. - County

List each county in which grazing district (section 3) lands lie, in alphabetical order for each district. Correct distribution of the lands among the various counties is important, since allocations of BLM and other receipts as well as other reports are made from these data.

Lands Administered by BLM

b. Column 2. - Vacant public lands

The classes of lands which are considered vacant public lands are enumerated in instruction for table 11b.

Reserved Lands

c. Column 3. - Land utilization (LU) lands

Include all Bankhead-Jones Farm tenant Act (title III) lands transferred to the exclusive jurisdiction of BLM. Furnish additional information for LU lands only as indicated in the table format on the lower part of the form.

d. Column 4. - Other BLM reserved lands

This column should include the various classes of public lands which are reserved for public purposes, but are administered exclusively by BLM. This column should include such withdrawals as stock driveways, public water reserves, withdrawals for classification, withdrawals in aid of legislation, withdrawals to facilitate land exchanges, etc. Power site reserves should be reported in this column despite the interest of the Federal Power Commission.

This column should be adequately footnoted so that every withdrawal can be identified and if necessary tabulated by classes. You will notice that if the same lands are covered by two or more withdrawals, that fact should be shown in the footnotes. Example: A footnote which shows "power site reserve and stock driveway, 5 acres" means that these 5 acres are covered completely both by a power site reserve and a stock driveway. It does not mean that 3 acres are covered by a power site reserve and 2 acres by a stock driveway, or any other such combination.

In the event that a BLM reservation is blanketed by a withdrawal which takes the lands out of BLM grazing jurisdiction, the lands should be reported in Column 10 only. If a BLM reservation is covered by a withdrawal for another agency, and if BLM retains grazing jurisdiction, the lands should be reported in Column 5 or Column 6 as the case may be, and not in Column 3 or 4.

Extreme care should be taken to identify each withdrawal properly. In case of doubt, the order number or other identifying symbol should be noted.

e. Columns 5 and 6. - Other Federal lands

These columns should include all withdrawn and reserved lands which are under the primary jurisdiction of other agencies. If we retain the grazing fees from such lands, they should be listed in Column 5. If we turn the fees over to another agency, the lands should be listed in Column 6. If no grazing fees are collected from such lands, they should be reported in Column 6.

These columns should be footnoted in the same manner as Column 4 and should include such withdrawals as reclamation withdrawals, wildlife refuges, land-utilization projects, Army withdrawals, Air Force withdrawals, Navy withdrawals, air navigation sites, etc., providing, of course, that we administer their grazing resources under an agreement with the agency having primary jurisdiction.

f. Column 7. - Leased lands (Pierce Act)

This column should include all lands leased under the Pierce Act.

g. Column 8. - Private lands (by agreement)

This column should include all privately-owned lands administered under exchange-of-use agreements.

h. Column 9. - Total

This column should be a total of Columns 2 through 8.

Lands Administered by Other Owners

i. Column 10. - Federal lands

This column should include all Federal lands within the exterior boundaries of grazing districts, the grazing resources of which we do not administer. Large reservations such as National forests and Indian reservations, over which BLM would not possibly secure grazing jurisdiction under cooperative agreements, should generally be considered as not within the exterior boundaries of grazing districts and should not be reported on this tabulation. This column should be footnoted in the same manner as Columns 4, 5, and 6 when necessary. The area of unperfected entries (allowed homesteads, allowed desert-land entries, and allowed application for mineral patent) should be reported in this column.

j. Column 11. - Private, State, etc., lands

This column should include all non-Federal lands within the exterior boundaries of grazing districts, the grazing resources of which we do not administer.

k. Column 12. - Total

This column should be a total of columns 10 and 11.

l. Column 13. - Grand total

This column should be a total of columns 9 and 12 and, of each grazing district.

2. Table 11b. - Lands under Bureau of Land Management jurisdiction outside designated grazing districts, 19--

- a. Although, with certain exceptions, all public lands in the United States are withdrawn or reserved, the following classes of land are, under certain conditions, subject to entry under the general public-land laws and therefore will be reported as unreserved public lands, unless they are otherwise reserved or appropriated (see Note:).

- (1) Public lands withdrawn by Executive Orders No. 6910 of November 26, 1934, and No. 6964 of February 5, 1935.
- (2) Public lands embraced in withdrawals for minerals classification, and in mineral classification (coal, oil and gas, oil shale, phosphate, sodium, sulphur, and potash).
- (3) Power site lands which have been restored to entry under Section 24 of the Federal Power Act.
- (4) Public lands withdrawn for resurvey.
- (5) Public lands withdrawn under the Reclamation Act of 1902 but which have been opened to entry as farm units. This class of land should always be reported as outside of grazing districts.
- (6) Public lands within national forests which have been opened to entry under the Act of June 11, 1906 (34 Stat. 233). This class of land should always be reported as outside of grazing districts.
- (7) Public lands within grazing districts. (Taylor Grazing Act).

Note: Do not report lands covered by an allowed entry. Such entries will be reported as unperfected entries in the unperfected entry column of table 11. (See item B.2. of this instruction).

b. Reserved lands

Under LU lands, report all Bankhead-Jones Farm Tenant Act (title III) lands transferred to BLM jurisdiction. Under Other report all other reserved lands; New Mexico shall

report Choc-Chick lands in Oklahoma in this column, and California shall report Angel Island and identify acreage by footnote. See instruction for Column 4, table 11a for types of lands considered reserved.

- c. Use the format on the bottom of the form to show State totals for transferred LU, Choc-Chic (prepared by New Mexico State Office) and Angel Island (California) lands to provide:

- (1) Fiscal year dates of acquisition by other agencies, and date of transfer to BIM.
- (2) Cost of acquisition, if available, as a total figure from records of transfer to BIM.
- (3) Estimated present valuation of:
 - (a) lands
 - (b) resources
 - (c) improvements, except buildings and structures
- (4) Present use - i.e., grazing, forestry, minerals, wildlife, etc.

3. Table 11. - Public lands under exclusive jurisdiction of the Bureau of Land Management, 19--

- a. Washington Office
(See item B.3. of this instruction).

4. Table 11c. - Public lands under exclusive jurisdiction of the Bureau of Land Management, 19--

- a. Washington Office
(See item B.4. of this instruction).

E. Special instructions

1. GSA Form 1166, Annual Report of Real Property Owned by the United States, prepared by the Field Administrative Officers, should correspond with similar data in table 11.

| Total----- | | | | | | | |

^{1/} The following types of surveyed and unsurveyed public and ceded Indian lands are included: Areas withdrawn under the Executive Orders of November 26, 1934, and February 5, 1935 (43 CFR 297.11 et seq.); areas embraced in mineral withdrawals and classifications; areas withdrawn for resurvey; and areas restored to entry within national forests (Act of June 11, 1906, 34 Stat. 233, 16 U.S.C. 506-509), within reclamation projects (Act of June 17, 1902, 32 Stat. 388), and within power site reserves (Act of June 10, 1920, 41 Stat. 1063, 16 U.S.C. 791). These lands are not covered by any non-Federal right or claim other than permits, leases, rights-of-way, and unreported mining claims.

^{2/} Data are incomplete.

^{3/} "Land Utilization Project" lands purchased by Federal government under Title III of the Bankhead-Jones Farm Tenant Act, and subsequently transferred from jurisdiction of the U.S. Department of Agriculture to the U.S. Department of the Interior and now administered by the Bureau of Land Management.

^{4/} Excludes reclamation and forest homesteads.

Table 12. - Area of national forests, 19--

A. Originating office

1. The Division of Planning in the Director's Office will fill out a table (an original and two clear copies) according to the format in sample table 12.

Note: If the table from Forest Service can be sent to GPO as received, then the Division of Planning need only have two copies made of the table received.

B. Reporting period

1. Table 12 covers the period for the fiscal year preceding the fiscal year just ended.

C. Source

1. The Division of Planning requests the Forest Service, U. S. Department of Agriculture, not later than June 15 of each year, to supply the figures for this table. A blank table is supplied for their use.

Table 13. - Area of Oregon and California revested lands, 19--

A. Originating office(s)

1. The Oregon State Office will submit an original and three clear copies of this table to the Director's Office, attention: 6.06b.

B. Processing, consolidation, and routing

1. The Chief, Division of Forest Management will check the Oregon State submission for accuracy and completeness and return the original to the Chief, Division of Planning indicating his approval thereof.

Note: The Chief, Division of Forest Management will retain one copy for office use.

C. Reporting period

1. The acreage of O&C lands as of June 30 should be shown for each county and column as indicated in the sample table 13.

D. Special instructions

1. Total acreage shown in the "O&C lands" column plus total acreage shown in the "Coos Bay lands" column should equal the total in the "Total area" column in Table 66.

D. Source

1. Prior year's report and land office title transfer records for O&C lands; recompilation of acreages for CBWR lands (Oregon-Washington).

TABLE 13. - Area of O&C revested lands, 19

| Total----- | | | | | |

1/ Excludes O&C timber on non-Federal land as follows: Columbia County, 322 acres; Yamhill County, 243 acres.

2/ Under the provisions of Public Law 426, 83d Cong. approved June 24, 1954, these lands were declared to be revested O&C railroad grant lands. They were placed under the jurisdiction of the Secretary of Agriculture, to be administered with National Forest lands; Provided, that all revenues derived from such lands shall be handled in accordance with the provisions of Title II of the O&C Act of August 28, 1937 (50 Stat. 874) as amended by Public Law 426.

3/ Certain O&C areas were set aside by various Acts of Congress to be administered by the Forest Service without losing their O&C identity. The lands in Benton, Clackamas, Jackson and Polk Counties are watershed lands, and the land in Josephine County is an administrative site.

4/ Excludes Coos Bay Wagon Road timber on 87 acres of non-Federal land in Coos County.

PART 2

LANDS

Summary

1. The summary is to be a brief analysis of the statistical data found in PART 2 as they relate chiefly to accomplishments and developments in the Bureau's lands program during the fiscal year. (See PART 2 in the Statistical Appendix for an example of the type and style of summary referred to here).
2. This written analysis must be limited in length to one side of one typewritten page.
3. Type each paragraph using single spacing, and double-spacing between paragraphs. Use standard margination.
4. Capitalize the words PART and LANDS in the heading. Use arabic numerals to designate the part number.
5. Indicate the table number or numbers in which data cited in the body of the analysis appears, at the end of the sentence or paragraph in which the data are cited, using parentheses, show the appropriate table number, i.e., (Table 16).
6. The summary analysis should not be written until the compilation of tables in PART 2 has been completed.
7. The Chief, Division of Lands and Recreation in the Director's Office will be responsible for writing the summary analysis for PART 2 of the Statistical Appendix, and for sending it to the Chief, Division of Planning, by September 1 of each year.

Definition of terms

(A list of selected terms found in various tables in PART 2 will be defined and printed immediately following the summary analysis).

Acquired lands:

Lands in Federal ownership which are not public lands, having been obtained by the Government by purchase, condemnation or gift, or by exchange for such purchased, condemned or donated lands, or for timber on such lands.

Carey Acts:

The Acts of August 18, 1894 (28 Stat. 372), and March 15, 1910 (36 Stat. 237, 43 U.S.C. sec. 643), which provides for grants of desert lands to States, such lands to be irrigated and reclaimed by the States for disposal to bona fide settlers.

Ceded Indian lands:

Public lands, Indian tribal title to which was relinquished to the United States by the Indians on condition that part or all of the proceeds from their sale or other disposition would be covered into the Treasury in trust for the Indians.

Certification:

The act of final approval of a State selection by the Director; also, the document which attests to the truth or authenticity of papers attached to it.

Disposition:

A transaction which leads to the transfer of title to public lands, and/or resources in these lands, from the Federal Government.

Entry:

An application to acquire title to public lands:

Allowed entry:

An application to acquire title to public lands which has been approved, either as an

Original entry:

Where the applicant is permitted to proceed with earning title to the land or as a

Final entry:

Where all the requirements of law and regulations have already been complied with. A final entry may be a

Cash entry:

Where the entryman pays cash or its equivalent, or a

Commuted entry:

Where the entryman pays the statutory price for the lands, in consideration for reduction of residence and improvement requirements.

Unperfected entry:

An original entry has been allowed, but the entryman has not met all of the requirements of the law and/or regulations to permit him to make final entry for patent.

Exchange:

A transaction whereby the Federal government receives land in exchange for other land and/or timber.

Private exchange:

An exchange between the Federal government and any landowner other than a State.

State exchange:

An exchange between the Federal government and a State.

Taylor Grazing Act exchange:

An exchange which is consummated under the provisions of section 8 of the Taylor Grazing Act.

Federal land:

All classes of land owned by the Federal Government.

Isolated tract:

A parcel of vacant public lands, not exceeding 1,520 acres, which is surrounded by appropriated public lands.

Patent:

A document which conveys to the patentee legal title to public lands.

Pittman Act entry:

An entry of public lands in Nevada made by an individual or association of individuals who earned the right to acquire title to the lands through discovery of underground sources of water.

Public auction:

A sale of lands through competitive, usually oral, bidding.

Public lands or public domain lands:

Original public domain lands which have never left Federal ownership; also, lands in Federal ownership which were obtained by the Government in exchange for public lands or for timber on public lands.

Public purpose:

Any authorized activity undertaken by a governmental agency or unit; also, any activity which serves the interest of the general public consistent with public policy.

Reclamation homestead entry:

An entry initiated under the Act of June 17, 1902 (32 Stat. 388, 43 U.S.C. sec. 43 et seq.), which provides for the issuance of patents to entrymen who settle upon and improve agricultural public lands, not exceeding 160 acres in size, within reclamation projects.

Reclamation sale:

Sale of excess or non-irrigable public lands within reclamation projects.

Recreational entry:

A cash entry for public lands by a State, county, municipality, or other local governmental agency, or by a nonprofit organization, which are to be used for public recreational purposes.

Reservation:

A withdrawal, usually of a permanent nature; also, any Federal lands which have been dedicated to a specified public purpose.

Reserved land:

Federal lands which are dedicated or set aside for a specific public purpose or program, and which are, therefore, generally not subject to disposition under the operation of any of the public land laws.

Restoration:

A revocation of a withdrawal which also affects the opening of the public lands in a withdrawal; also, an action which returns ceded Indian lands to tribal ownership.

Revocation:

Generally, an action which cancels a previous official act; specifically, an action which cancels a withdrawal.

Selection:

In general, an application to acquire title to public lands which is submitted by an applicant who acquired the right to apply for such lands by receipt of a grant, by surrender of his own lands in an exchange, by relinquishment of his rights to other lands (lieu selection), by surrender of scrip or by similar means (see entry).

Small tract:

A parcel of public lands of 5 acres or less which has been found chiefly valuable for sale or lease as a home, recreation, business, or community site under the Act of June 1, 1938 (53 Stat. 609; 43 U.S.C. 682 a-c), as amended.

Special land use permit:

A permit which authorizes the use of public lands for purposes not specifically authorized, or forbidden, by law.

Vacant public land:

Public land or public domain land which is not reserved, appropriated, or set aside for a specific or designated purpose.

Withdrawal:

An action which restricts the disposition of public lands and which holds them for specific public purposes; also, public lands which have been dedicated to public purposes.

Table 14. - Original entries and selections allowed and final entries approved, 19--

A. Originating office

1. The Division of Lands and Recreation in the Director's Office, will fill out a table according to the format shown in sample table 14.

B. Processing, consolidation, and routing

1. The Division of Lands and Recreation will submit an original and two clear copies of table 14 to the Chief, Division of Planning.

C. Reporting period

1. Show total original entries and selections allowed and final entries approved during the fiscal year just ended, by State, as required by the sample table format.

D. Special instructions

1. Data in tables 15, 16, 18, and 29 must coincide with comparable figures in table 14.

E. Source

1. Data in tables 15 and 16 will be used to compile table 14.

Table 15. - Original entries and selections allowed, 19--

A. Originating office(s)

1. Each land office will fill out a table according to the format shown in sample table 15.

B. Processing, consolidation, and routing.

1. Each land office will submit to the State office an original and one clear copy for the Director's Office, together with any copies required by the State office. The Land Office, Division of Field Services will submit table 15 to the Chief, Division of Field Services.
2. State Directors and the Chief, Division of Field Services will check the land office submissions for accuracy and completeness and forward the original and one clear copy to the Director's Office, attention: 6.06b.
3. The Chief, Division of Lands and Recreation in the Director's Office will compile table 15 in final form, from State and Division of Field Services submissions, and forward an original and two clear copies of the total Bureau table 15 to the Chief, Division of Planning.

C. Reporting period

1. Show total original entries and selections allowed during the fiscal year by State (except California and Alaska where land offices will be shown) as required by the sample table format.

D. Special instructions

1. Data in Tables 14, 18, 21, 27, and 29 must coincide with comparable figures in Table 15.
2. Data accuracy: Tabulate to 2 decimal places, i.e., 100th of an acre and cents.
3. Items to be included: Homesteads, desert land entries, State selections, Alaska homesites (1927 and 1934 acts), Alaska headquarters sites; Alaska trade and manufacturing sites; mining-claim applications; Alaska native allotments; railroad selections.
4. Items not to be included: Small tract sales, public auction sales, Recreation and Public Purposes Act sales, Indian allotments (except Alaska), color-of-title and riparian rights entries, townlot sales, reclamation land sales, miscellaneous cash sales, soldiers' additional homesteads, other scrip locations, exchanges, airport grants, special private grant laws, leases, and permits and rights-of-way.

5. Fees to be reported: All fees and commissions required with original application and earned with filing of application and allowance of entry or selection.
6. Purchase money to be reported: None except the 25¢ per acre earned through allowance of desert land entries and payment for excess area of homestead entries.
7. Footnote instructions:
 - (1) Identify all ceded Indian entries, lands, fees, and purchase money, showing name of tribe and pertinent statute.
 - (2) Identify entries, lands, fees, and purchase money of all items in "other" and "miscellaneous" entries, with citation of statute as much as possible. Identify in the same manner any out-of-the-ordinary item included within a general category, (e.g. a public-auction sale under a special act which is reported in the "Public Sale" category, the latter being really sales under Sec. 2455 R.S.).
 - (3) Identify reason for purchase money when purchase money not ordinarily required (e.g., payment for excess area of homesteads, payment for commuted homesteads, payment for homestead on O&C lands).
 - (4) Identify State of entries (number, acres, fees and commissions, purchase money) where land office covers more than one State.
 - (5) *Identify original stockraising homesteads by number, acres, fees and commissions.*

Table 16. - Final entries approved, 19--

A. Originating office(s)

1. Each land office will fill out a table according to the format shown in sample table 16.

B. Processing, consolidation, and routing

1. Each land office will submit to the State office an original and one clear copy for the Director's Office, together with any copies required by the State office. The Land Office, Division of Field Services, will submit table 16 through the Chief of that Division.
2. State Directors and the Chief, Division of Field Services, will check the land office submissions for accuracy and completeness and forward the original and one clear copy to the Director's Office, attention: 6.06b.
3. The Chief, Division of Lands and Recreation in the Director's Office, will compile a consolidated table 16 from all State submissions and the Division of Field Services, and forward an original and two clear copies of the total Bureau table to the Chief, Division of Planning.

C. Reporting period

1. Show required data as land office records reflect the situations as of June 30, the last day of the fiscal year.

D. Special instructions

1. Data in tables 14, 18, 22, 23, and 27 must coincide with comparable figures shown in the appropriate parts of table 16.
2. The following data must be explained in the footnotes:
 - a. Ceded Indian land entries
 - b. Special fees
 - c. "Other" cash sales
 - d. "Other" entries
 - e. Reclamation sales
 - f. Homestead purchase money
 - g. Special acts
3. Point of count: Date of final certificate
4. Data accuracy: Tabulate to two decimal places, i.e. 100th of an acre and cents
5. Items to be included: Homesteads, desert land entries, public auction sales (Sec. 2455 R.S.),

mining-claim entries, color-of-title and riparian rights entries, small tract sales, townlot sales, townsite sales, reclamation land sales, Alaska homesite and headquarters and trade and manufacturing site sales, Recreation and Public Purposes Act sales, Alaska Public Sales, miscellaneous cash sales, airport grants, special private grant laws, soldiers' additional homestead and other scrip locations, Indian and other native allotments.

6. Items not to be included: State selections, railroad selections, exchanges, leases and permits, and rights-of-way.
7. Fees to be reported: All fees and commissions required with final application for patent (application to purchase or final proof) and earned with issuance of final certificate.
8. Purchase money to be included: All purchase money earned through issuance of final certificates.
9. Special footnote instructions:
 - (1-4) Same as for "Original Entries and Selections Allowed".
 - (5) Alaska reporting offices will include in the table the number and acreage of State selections finally approved.
 - (6) Alaska reporting offices will report (after the footnotes) only the number and acreage of State selections tentatively approved. These figures will not be included in the table itself.

Table 17. - Patents issued, 19-- (also 17a)

A. Originating office(s)

1. Land offices which write patents will prepare a table according to the format shown in sample table 17a.

B. Processing, consolidation, and routing

1. Land offices will submit to the State office an original and one clear copy of table 17a for the Director's Office, together with any copies required by the State Office.
2. State Directors will check the submissions for accuracy and completeness and forward the original and one clear copy to the Director's Office, attention: 6.06b.
3. The Patent Section, Division of Field Services will prepare a table 17a (an original and one clear copy) and prepare a consolidated table 17 (an original and two clear copies) incorporating the figures from tables 17a into it.
 - a. The original copy of table 17a received from the land offices will be transmitted to the Patent Section, Division of Field Services, by the Division of Planning.
 - b. One clear copy of table 17a, and an original and two clear copies of table 17 (prepared by the Patent Section) will be submitted to the Chief, Division of Field Services. He will check the tables for accuracy and completeness, and forward the copy of table 17a and the original and two clear copies of table 17 to the Director's Office, attention: 6.06b.

C. Reporting period

1. Table 17 covers the period for the fiscal year just ended.

D. Special instructions

1. Do not use footnotes as an index for other tables

Example:

- 1/ For homestead patents by type of homestead, see table 24.
- 2/ For area conveyed to United States by type of exchanges, see table 25.
2. Data in tables 18, 24, 25, and 36 must coincide with comparable figures in table 17.
3. Use footnotes to show Acts, etc. as shown in the Statistical Appendix.

E. Source

1. Daily record card of patents issued, and filed according to type of patent. (In the Patent Section, Division of Field Services these cards are filed according to type of patent for each State). Each card shows the date of issuance, office and serial number, acreage, and what minerals are reserved, if any, in each patent.

| Fiscal year 1960----- | | | | | | | |
| Fiscal year 1961----- | | | | | | | |
| Grand total----- | | | | | | | |

Note: Data prior to 1949 tabulated from incomplete records; data after 1948 not maintained by States.

Table 20. - Patents issued with minerals reserved to the United States, 19--

A. Originating office(s)

1. Land offices which write patents will prepare a table according to the format shown in sample table 20. List the minerals or combination of minerals as they appear in the patents written.

B. Processing, consolidation, and routing

1. Land offices will submit to the State office an original and one clear copy of table 20 for the Director's Office, together with any copies required by the State office.
2. State Directors will check the submissions for accuracy and completeness, and forward the original and one clear copy to the Director's Office, attention: 6.06b.
3. The Patent Section, Division of Field Services will prepare a table 20 (an original and one clear copy) covering the patents they wrote.)
4. The Patent Section, Division of Field Services, will prepare a consolidated table 20 (an original and two clear copies).
5. The Patent Section will transmit one clear copy of table 20 for the patents which they issued, together with an original and two clear copies of the consolidated table 20 to the Chief, Division of Field Services.
6. The Chief, Division of Field Services will check the tables for accuracy and completeness, and forward the copy of table 20 and the original and two clear copies of consolidated table 20 to the Chief, Division of Planning.

C. Reporting period

1. Provide figures for patents issued with minerals reserved to the United States during the fiscal year just ended, according to the type of mineral reservation. See sample table 20.

D. Special instructions

1. Data in table 20 must coincide with comparable figures in table 19.

E. Source

1. Daily card record of patents issued, and filed according to type of patent. (In the Patent Section, Division of Field Services, these cards are filed according to type of patent for each State). Each card shows the date of issuance, office and serial number, acreage, and what minerals are reserved, if any, in each patent.

SAMPLE

TABLE 20. - Patents issued with minerals reserved to the United States, 19

| Type of mineral reservation | Acres | Type of mineral reservation | Acres |
|----------------------------------|-------|----------------------------------|-------|
| Reservation of all minerals----- | | Reservation of-Continued | |
| Reservation of: | | Oil, gas, oil shale----- | |
| Coal----- | | Oil, gas, hydrocarbon----- | |
| Coal, oil, and gas----- | | Oil, gas and other minerals----- | |
| Coal and other minerals----- | | Potash and sodium----- | |
| Oil and gas----- | | Sodium----- | |
| Oil, gas, potash, sodium----- | | Total----- | |
| Oil, gas, potash, oil shale----- | | Grand total----- | |
| Oil, gas, phosphate----- | | | |

Table 21. - Original homestead entries allowed, 19--

A. Originating office(s)

1. Each land office will fill out a table according to the format given in sample table 21.

B. Processing, consolidation, and routing

1. Land offices will submit to the State office an original and one clear copy for the Director's Office, together with any copies required by the State office. The Land Office, Division of Field Services will submit table 21 to the Chief, Division of Field Services.
2. State Directors and the Chief, Division of Field Services will check land office submissions for accuracy and completeness, and forward the original and one clear copy to the Director's Office, attention: 6.06b.
3. The Chief, Division of Lands and Recreation in the Director's Office will prepare a consolidated table 21 from the State and Division of Field Services submissions, and send an original and two clear copies to the Chief, Division of Planning.

C. Reporting period

1. Provide figures for total homestead entries allowed during the fiscal year, by State, according to the categories shown in the sample table.

D. Special instructions

1. The following data must be explained in the footnotes:

a. Number and acreage of all homesteads on:

- (1) Ceded Indian lands
- (2) O&C and Coos Bay lands
- (3) All entries shown under "Other"

2. Do not report pending applications not yet allowed.

3. Data in tables 15 and 18 must coincide with comparable figures shown in the appropriate parts of table 21.

E. Source

1. Report of Original and Final Entries, Form 4-1122
2. Adjudication records

TABLE 21. - ⁰Original homestead entries allowed, 19

Table 22. - Final homestead entries approved, May 20, 1862 - June 30, 19--

A. Originating office(s)

1. The Division of Planning in the Director's Office will update table 22 in accordance with the format shown in sample table 22.

B. Processing, consolidation, and routing

1. The Division of Planning will prepare an original and two clear copies of table 22.

C. Reporting period

1. The figures used to update this table cover the period for the fiscal year just ended.

D. Special instructions

1. The data in table 22 should coincide with comparable data in tables 16, 18, and 23.

E. Source

1. The figures used to update table 22 are obtained from "Total" column of table 23 for the fiscal year just ended.

SAMPLE

TABLE 22. - Final homestead entries approved, May 20, 1862 - June 30, 19

| Fiscal year | Number | Acres | Fiscal year | Number | Acres |
|----------------|--------|-------|-------------|--------|-------|
| 1868-1870----- | | | 1945----- | | |
| 1871-1875----- | | | 1946----- | | |
| 1876-1880----- | | | 1947----- | | |
| 1881-1885----- | | | 1948----- | | |
| 1886-1890----- | | | 1949----- | | |
| 1891-1895----- | | | 1950----- | | |
| 1896-1900----- | | | 1951----- | | |
| 1901-1905----- | | | 1952----- | | |
| 1906-1910----- | | | 1953----- | | |
| 1911-1915----- | | | 1954----- | | |
| 1916-1920----- | | | 1955----- | | |
| 1921-1925----- | | | 1956----- | | |
| 1926-1930----- | | | 1957----- | | |
| 1931-1935----- | | | 1958----- | | |
| 1936-1940----- | | | 1959----- | | |
| 1941----- | | | 1960----- | | |
| 1942----- | | | 1961----- | | |
| 1943----- | | | | | |
| 1944----- | | | Total----- | | |

Footnotes:

Note.-This table does not include commuted homesteads or homesteads on ceded Indian lands. The first homestead law was enacted May 20, 1862 (Rev. Stat. sec. 2289, 43 U.S.C. 291).

Source:

Table 23. - Final homestead entries approved, 19--

A. Originating office(s)

1. Each land office will fill out a table according to the format given in sample table 23.

B. Processing, consolidation, and routing

1. Land offices will submit to the State office an original and one clear copy for the Director's Office, together with any copies required by the State office. The land office, Division of Field Services will submit table 23 to the Chief, Division of Field Services.
2. State Directors and the Chief, Division of Field Services will check land office submissions for accuracy and completeness and forward the original and one clear copy to the Director's Office, attention: 6.06b.
3. The Chief, Division of Lands and Recreation in the Director's Office will prepare a consolidated table 23 from the State submissions and send an original and two clear copies to the Chief, Division of Planning.

C. Reporting period

1. Show in table 23 all final homestead entries approved by State the fiscal year just ended.

D. Special instructions

1. Total number and acreage figures for all types of final homestead entries shown in this table must be equal to:
 - a. Final homestead entry data shown in tables 16, 18, and 22.
2. Footnote all data shown in column titled "Other" in table 23 to specify the type of homestead, other than Sec. 2289 R. S. or Reclamation.

June 30, 19--

A. Originating office(s)

1. The Division of Planning in the Director's Office will update the last published table 27 in the Statistical Appendix.

a. Three copies of the updated table will be made.

B. Reporting period

1. Figures for original and final desert land entries covering the period for the fiscal year just ended will be added to the figures in table 27 appearing in the last issue of the Statistical Appendix.

C. Source

1. The appropriate figures will be extracted from tables 15 and 16 and added to the last published table 27.

SAMPLE

TABLE 27. - Original and final desert land entries, March 3, 1877 - June 30, 19

| State | Original entries | | | Final entries | | |
|-----------------------|------------------|-------|----------------|---------------|-------|--------------------------|
| | Number | Acres | Purchase money | Number | Acres | Purchase money <u>1/</u> |
| Arizona----- | | | \$ | | | \$ |
| California----- | | | | | | |
| Colorado----- | | | | | | |
| Dakota Territory----- | | | | | | |
| Idaho----- | | | | | | |
| Montana----- | | | | | | |
| Nevada----- | | | | | | |
| New Mexico----- | | | | | | |
| North Dakota----- | | | | | | |
| Oregon----- | | | | | | |
| South Dakota----- | | | | | | |
| Utah----- | | | | | | |
| Washington----- | | | | | | |
| Wyoming----- | | | | | | |
| Total----- | | | | | | |

1/ With few exceptions, the entryman was required to pay \$0.25 per acre with his application to enter, and an additional \$1.00 per acre with his final proof.

Note. - Data in this table deal with sections taken under the Act of March 3, 1877 (19 Stat. 377, 43 U.S.C. 321-323), the Relief Act of March 4, 1915 (38 Stat. 1161, 43 U.S.C. 335), and other relief acts.

Table 28. - Original stockraising homesteads on public and ceded Indian lands, 19-- (also 28a).

A. Originating office(s)

1. Each land office, exclusive of Alaska and Division of Field Services will fill out a table according to the format given in sample table 28a.

B. Processing, consolidation, and routing

1. Land offices will submit to the State office an original and one clear copy for the Director's Office, together with any copies required by the State office.
2. State Directors will check the submissions for accuracy and completeness, and forward the original and one clear copy to the Director, attention: 6.06b.
3. The Division of Lands and Recreation in the Director's Office will prepare an original and two clear copies of table 28 incorporating the figures from table 28a into it.

C. Reporting period

1. Figures for original stockraising homesteads, by States, covering the period for the fiscal year just ended will be added to the figure in table 28 section A, appearing in the last issue of the Statistical Appendix. Figures for original stockraising homesteads by fiscal years will be added to Section B of table 28 as another line item.

D. Special instructions

1. Data in table 28 must coincide with comparable figures in table 18.

Table 30. - Small tract leases and sales, 19--

A. Originating office(s)

1. Each land office will fill out a table according to the format shown in sample table 30.

B. Processing, consolidation, and routing

1. Each land office will submit to the State office an original and one clear copy for the Director's Office, together with any copies required by the State office. The Land Office, Division of Field Services, will submit table 30 to the Chief of that Division.
2. State Directors and the Chief, Division of Field Services, will check the land office submissions for accuracy and completeness, and forward the original and one clear copy to the Director's Office, attention: 6.06b.
3. The Chief, Division of Lands and Recreation in the Director's Office, will prepare a consolidated table 30 from all State submissions, and forward an original and two clear copies of the total Bureau table to the Chief, Division of Planning.

C. Reporting period

1. Show data in this table for periods and as-of dates as indicated by the self-explanatory column headings in the sample format.

D. Special instructions

1. For leases in effect as of June 30, (fiscal year).
 - a. Exclude rental for business site leases, the rent for which is based upon the gross receipts of the business lessee; but include the number of business site leases and acreage with the total leases shown in these columns for each State.
 - b. Footnote the number of business site leases included in the total leases shown for each State.
2. For sales during fiscal year.
 - a. Footnote the number of sales by ^{public}~~private~~ auction, direct sale, etc.

Table 33. - Unperfected entries pending, 19--

A. Originating office(s)

1. Each land office will fill out a table according to the format shown in sample table 33.

B. Processing, consolidation, and routing

1. Each land office will submit to the State office an original and one clear copy for the Director's Office, together with any copies required by the State office. The Land Office, Division of Field Services, will submit table 33 to the Chief, Division of Field Services.
2. State Directors and the Chief, Division of Field Services, will check the land office submissions for accuracy and completeness and forward the original and one clear copy to the Director's Office, attention: 6.06b.
3. The Chief, Division of Lands and Recreation, in the Director's Office, will prepare a consolidated table 33 according to the sample table, from all State submissions, and forward an original and two clear copies to the Chief, Division of Planning.

C. Reporting period

1. Show required data as land office records reflect the situation as of June 30, the last day of the fiscal year.

D. Special instructions

1. The figures for all unperfected homestead entries pending shown in this table must be equal to comparable data in "Total" column in table 34.
2. All items reported in the column, "Other" must be specifically enumerated in the footnotes, including reclamation and forest homesteads.
 - a. Account for number, acreage, and State in the footnotes.
3. Do not report pending applications not yet allowed.

PART 3

MINERALS

Summary

1. The summary is to be a brief analysis of the statistical data found in PART 3 as they relate chiefly to accomplishments and developments in the Bureau's minerals program during the fiscal year. (See PART 3 in the Statistical Appendix for an example of the type and style of summary referred to here).
2. This written analysis must be limited in length to one side of one typewritten page.
3. Type each paragraph using single spacing and double-space between paragraphs. Use standard margination.
4. Capitalize the words PART and MINERALS in the heading. Use Arabic numerals to designate the part number.
5. Indicate the table number or numbers in which data cited in the body of the analysis appears at the end of the sentence or paragraph in which the data are cited, using parentheses, show the appropriate table number, i.e. (Table 45).
6. The summary analysis should not be written until the compilation of all tables in PART 3 has been completed.
7. The Chief, Division of Minerals in the Director's Office will be responsible for writing the summary analysis for PART 3 of the Statistical Appendix, and for sending it to the Chief, Division of Planning by September 1 of each year.

Definition of terms

(A list of selected terms found in various tables in PART 3 will be defined and printed immediately following the summary analysis).

Bonus:

The cash consideration paid to the United States by the successful bidder for a mineral lease, such payment being made in addition to the rent and royalty obligations specified in the lease.

Field examination:

An on-the-ground investigation of certain public lands in regard to valuation, land, application for entry, mineralization, etc.

Competitive lease:

A lease issued by the United States where there are known minerals, or inference of probable mineralization shown can be drawn from knowledge of the geology of the land. The lands are offered for lease by competitive bidding after publication of the offer of the lands for leasing. The lease issues to the high bidder, who is determined at a sale by public auction.

Lease:

A contract or instrument by which interests are created or transferred to another subject to specified obligations and given in consideration of rent or some other recompense.

License:

An authority granted by the United States to do a particular act or series of acts upon public lands without the lessee possessing any estate or interest in the land itself.

Location:

The perfecting of a right to possession of a mining claim for mining purposes. This includes the staking of the claim, sinking a discovery shaft, discovery of a valuable mineral, posting a notice of location, and recording the claim.

L.P.G.:

Liquid petroleum gases.

Mineral:

Inorganic substance occurring naturally, with characteristics and economic uses that bring it within the purview of mineral laws; a substance that may be obtained under applicable laws from public lands by purchase, lease or pre-emptive entry.

Mineral classification:

The classification of lands as mineral lands which are lands known to contain valuable minerals.

Mineral investigation:

Synonymous with field examination

Mineral permit:

A permit which authorizes prospecting for certain leasable minerals on public lands described in the permit.

Mineral reservation:

A restriction on Federally-owned minerals, or of public lands which contain minerals.

Noncompetitive leasing:

Leases are issued to qualified applicants for lands not specifically known or presumed to contain mineral or petroleum deposits in quantity.

Table 36. - Mineral Patents

A. Originating office(s)

1. Land offices which write patents will prepare a table according to the format shown in sample table 36.
2. The Patent Section, Division of Field Services will also prepare a table 36 for the patents they write.

B. Processing, consolidation, and routing

1. Land offices will submit to the State office an original and one clear copy of table 36 for the Director's Office, together with any copies required by the State office.
2. State Directors will check the submissions for accuracy and completeness and forward the originals and one clear copy to the Director's Office, attention: 6.06b.
3. The Patent Section, Division of Field Services, will prepare a consolidated table 36, an original and two clear copies.
4. The Patent Section will submit one clear copy of table 36 covering the patents it wrote and an original and two clear copies of the consolidated table 36 to the Chief, Division of Field Services. He will check the tables for accuracy and completeness and forward to the Director's Office, attention: 6.06b.

C. Reporting period

1. The figures in this table should cover the period for the fiscal year just ended, listing the categories in alphabetic order, as shown in sample table 36.

D. Special instructions

1. The total number of mineral patents issued and the total acres included in such patents must equal the "Grand Total" in the "Numeral" column in table 17, and must coincide with comparable figures in table 18.

E. Source

1. Daily card record of patents issued, and filed according to type of patent. Each card shows the date of issuance, office and serial number, acreage, and type of mineral deposit in each patent.

Table 37. - Mineral patent applications, 19--

A. Originating office(s)

1. Each land office will fill out a table according to the format shown in sample table 37.

B. Processing, consolidation, and routing

1. Each land office will submit to the State office an original and one clear copy for the Director's Office, together with any copies required by the State office. The Land Office, Division of Field Services, will submit table 37 to the Chief of that Division.
2. State Directors and the Chief, Division of Field Services will check the land office submissions for accuracy and completeness, and forward the original and one clear copy to the Director's Office, attention: 6.06b.
3. The Chief, Division of Minerals in the Director's Office will prepare a consolidated table 37 from all State submissions, and forward an original and two clear copies of the total Bureau table to the Chief, Division of Planning.

C. Reporting period

1. Show data as indicated by the various column headings in the table for the fiscal year just ended.

D. Special instructions

1. Explain all data that could be misinterpreted or misunderstood in footnotes.

E. Source

1. Docket control
2. Adjudication records

PART 4

ADJUDICATION, APPEALS, CLASSIFICATIONS & INVESTIGATIONS, HEARINGS

Summary

1. The summary is to be a brief analysis of the statistical data found in PART 4 as they relate chiefly to accomplishments and developments in the Bureau's adjudication, appeals, classification and investigation, and hearings program during the fiscal year. (See PART 4 in the Statistical Appendix for an example of the type and style of summary referred to here.)
2. This written analysis must be limited in length to one side of one typewritten page.
3. Type each paragraph using single spacing, and double-spacing, and double-space between paragraphs. Use standard margination.
4. Capitalize the words PART and ADJUDICATION, APPEALS, CLASSIFICATION & INVESTIGATION, HEARINGS in the heading. Use arabic numerals to designate the part number.
5. Indicate the table number or numbers in which data cited in the body of the analysis appears, at the end of the sentence or paragraph in which the data are cited, using parentheses, show the appropriate table number, i.e., (Table 56).
6. The summary analysis should not be written until the compilation of tables in PART 4 has been completed.
7. The Chief, Division of Planning in the Director's Office will be responsible for writing the summary analysis for PART 4 of the Statistical Appendix, and for coordinating it with the Chiefs of Division of Lands and Recreation, Division of Minerals, Appeals, and the Assistant Director, Operating Services, and Hearings.

Definition of terms

(A list of selected terms found in various tables in PART 4 will be defined and printed immediately following the summary analysis).

Adjudication:

The interpretation of statutes and regulations, and their application to a particular set of facts.

Appeal:

A petition to the Director of the Bureau of Land Management to change or modify a decision rendered by any officer subordinate to him. The regulations governing the Bureau's operations give all parties adversely affected by decision of subordinate officers

the right to appeal to the Director (43 CFR 221.1) and require the Director to render a written decision in each case appealed to him (43 CFR 221.9).

Classification:

The designation of lands as lands being valuable, or suitable, for specific purposes, uses, or resources.

Decision:

A decision is the reduction to writing of the adjudicative process: a decision orders the disposition of a case in a certain way, and contains a statement of the facts, laws and reasoning which require that disposition.

Hearing:

Hearings in cases the adjudication of which is based on testimony and evidence adduced at proceedings ordered and held pursuant to the U. S. Department of the Interior's rules of practice (43 CFR, Part 221) or the Federal Range Code for Grazing Districts (43 CFR, Part 161).

Investigation:

A fact-finding activity, which may include on-the-ground examination of lands, undertaken preliminary to determination and adjudication under the public land laws.

Table 48. - Adjudication operations, 19--(Summary by State)

A. Originating office(s)

1. The Division of Lands and Recreation and the Division of Minerals in the Director's Office, will each fill out a table according to the format shown in sample table 48.

B. Processing, consolidation, and routing

1. The Division of Lands and Recreation and the Division of Minerals will each submit an original and one clear copy to the Chief, Division of Planning.
2. The Division of Planning will prepare a consolidated table 48 from the submissions (an original and two clear copies).

C. Reporting period

1. Table 48 covers the period for the fiscal year just ended.

D. Special instructions

1. The data in table 48 must coincide with comparable data in tables 50, 51, 52, and 53.

E. Source

1. BIM forms 4-1396 and 4-1397, monthly casework reports (lands and minerals).

Table 49. - Adjudication operations, 19-- (Summary by type of case)

A. Originating office(s)

1. The Division of Lands and Recreation and the Division of Minerals in the Director's Office will fill out that part of Table 49 that pertains to their operations. (See sample table).

B. Processing, consolidation, and routing

1. The Division of Lands and Recreation and the Division of Minerals will each submit an original and one clear copy to the Chief, Division of Planning.
2. The Division of Planning will prepare a consolidated table 49 from the submissions (an original and two clear copies).

C. Reporting period

1. Table 49 covers the period for the fiscal year just ended.

D. Special instructions

1. The data in table 49 must coincide with comparable data in tables 50, 51, 52 and 53.

E. Source

1. The monthly adjudication reports and the monthly classification and investigation reports (lands and minerals).

Table 57. - Lands classified and found suitable for disposition under the Taylor Grazing Act, 19--

A. Originating office(s)

1. Each land office, exclusive of Alaska, will fill out a table according to the format given in sample table 57.

B. Processing, consolidation, and routing

1. The land offices will submit to the State office an original and one clear copy for the Director's Office, together with any copies required by the State office. The Land Office, Division of Field Services, will submit table 57 to the Chief, Division of Field Services.
2. State Directors and the Chief, Division of Field Services, will check land office submissions for accuracy and completeness and forward the original and one clear copy to the Director's Office, attention: 6.06b.
3. The Chief, Division of Lands and Recreation in the Director's Office, will prepare a consolidated table 57 from the State submissions, and send an original and two clear copies to the Chief, Division of Planning.

C. Reporting period

1. Table 57 covers the period for the fiscal year just ended.

D. Special instructions

1. Identify by footnotes all items in "Other" column.
2. Tabulate to the nearest acre.
3. Include all types of applications which come under Sections 7, 8, and 14 of the Taylor Grazing Act, except for recreation and public purposes as they are shown in another table.
4. Do not include Recreation and Public Purposes, all types of applications which do not come under Sections 7, 8, and 14 of the Taylor Grazing Act, including, but not limited to color of title, withdrawals, restorations, small holding claims.

D. Special instructions

1. Identify by footnotes all items in "Other" column.
2. Tabulate to the nearest acre.
3. Include all types of applications which come under Sections 7, 8, and 14 of the Taylor Grazing Act, except for recreation and public purposes as they are shown in another table.
4. Do not include Recreation and Public Purposes, all types of applications which do not come under Sections 7, 8, and 14 of the Taylor Grazing Act, including, but not limited to, color-of-title, withdrawals, restorations, small holding claims.

Table 59. - Lands classified under miscellaneous laws, 19--

A. Originating office(s)

1. Each land office will fill out a table according to the format given in the sample table 59.

B. Processing, consolidation, and routing

1. Land offices will submit to the State office an original and one clear copy for the Director's Office, together with any copies required by the State office. The Land Office, Division of Field Services, will submit table 59 to the Chief, Division of Field Services.
2. State Directors and the Chief, Division of Field Services will check land office submissions for accuracy and completeness and forward the original and one clear copy to the Director's Office, attention: 6.06b.
3. The Chief, Division of Lands and Recreation in the Director's Office, will prepare a consolidated table 59 from the State submissions, and send an original and two clear copies to the Chief, Division of Planning.

C. Reporting period

1. Table 59 covers the period for the fiscal year just ended.

D. Special instructions

1. Show by footnotes number of cases and acres of lands classified and found not suitable for disposition for recreation and public purposes.
2. Show by footnotes acreages declassified under the Small Tract Act in order to reconcile the acreages shown under "Total Areas Classified as of June 30, 19--."
3. Tabulate to the nearest acre.

PART 5

ENGINEERING

Summary

1. The summary is to be a brief analysis of the statistical data found in PART 5 as they relate chiefly to accomplishments and developments in the Bureau's public land survey program during the fiscal year. (See PART 5 in the Statistical Appendix for an example of the type and style of summary referred to here).
2. This written analysis must be limited in length to one side of one typewritten page.
3. Type each paragraph using single spacing, and double-spacing between paragraphs. Use standard margination.
4. Capitalize the word PART and PUBLIC LAND SURVEYS in the heading. Use arabic numerals to designate the part number.
5. Indicate the table number or numbers in which data cited in the body of the analysis appears, at the end of the sentence or paragraph in which the data are cited, using parentheses, show the appropriate table number, i.e., (Table 63).
6. The summary analysis should not be written until the compilation of tables in PART 5 has been completed.
7. The Chief, Division of Engineering in the Director's Office, will be responsible for writing the summary analysis for PART 5 of the Statistical Appendix, and for sending it to the Chief, Division of Planning, by September 1 of each year.

Definition of terms

(A list of selected terms found in various tables in PART 5 will be defined and printed immediately following the summary analysis).

Cadastral survey:

A survey relating to land boundaries and subdivisions, made to create units suitable for management or to define the limits of title. The distinguishing features of the cadastral surveys are the establishment of monuments on the ground to define the boundaries of the lands, and their identification in the records by field notes and plats.

Meander line:

A traverse of the margin of a permanent natural body of water, defining the sinuosities of the bank or shoreline, in connection with a cadastral survey.

Original survey:

A cadastral survey which creates land boundaries and establishes them for the first time.

Protection diagram:

A diagram representing the plan of extension of the cadastral surveys over unsurveyed public lands, based upon computed values for the corner positions.

Resurvey:

A cadastral survey to identify and re-mark the boundaries of lands which were established by a prior survey.

Special survey:

A cadastral survey other than an original survey or resurvey. This category includes such work as small tract surveys; townsites surveys; island and omitted land surveys; homestead, homesite, trade and manufacturing site surveys; also the survey and resurvey of section lines and connecting lines not involving a closed traverse.

Table 61. - Surveyed and unsurveyed lands in the public land States,
1786 to present

A. Originating office(s)

1. The Division of Engineering in the Director's Office will compile a table according to the format in sample table 61.

B. Processing, consolidation, and routing

1. The Division of Engineering will prepare an original and two clear copies of table 61 and forward to the Chief, Division of Planning.

C. Reporting period

1. The figures in table 61 cover the period for the fiscal year just ended.

PART 6
FOREST MANAGEMENT

Summary

1. The summary is to be a brief analysis of the statistical data found in PART 6 as they relate chiefly to accomplishments and developments in the Bureau's forest management program during the fiscal year. (See PART 6 in the Statistical Appendix for an example of the type and style of summary referred to here).
2. This written analysis must be limited in length to one side of one typewritten page.
3. Type each paragraph using single spacing, and double-space between paragraphs. Use standard margination.
4. Capitalize the words PART and FOREST MANAGEMENT in the heading. Use arabic numerals to designate the part number.
5. Indicate at the end of the sentence or paragraph in which the data are cited, the table number or numbers in which data cited in the body of the analysis appears, using parentheses; i.e., (Table 66).
6. The summary analysis should not be written until the compilation of tables in PART 6 has been completed.
7. The Chief, Division of Forest Management in the Director's Office will be responsible for writing the summary analysis for PART 6 of the Statistical Appendix, and for sending it to the Chief, Division of Planning by September 1 of each year.

Definition of terms

(A list of selected terms found in various tables in PART 6 will be defined and printed immediately following the summary analysis).

Allowable cut:

The volume of timber that may be harvested annually from a well-managed and regulated forest property.

Access roads:

Mainline roads constructed primarily to facilitate the removal of timber from forested areas, and financed by appropriated funds.

Commercial forest land:

Lands growing stands of forest trees which possess present or potential merchantable value.

Cord:

A standard unit of measurement of round or split wood filling a stack 4 x 4 x 8 feet and occupying approximately 128 cubic feet, commonly used in measuring fuel or pulpwood.

Forest cover:

All trees and other woody plants in the forest.

Master unit:

A sustained yield operating area for which an allowable cut has been computed.

MBM or MBF or M bd. ft.:

Thousand board feet. The board foot is a unit of lumber measurement one foot long, one foot wide and one inch thick, or its equivalent. It is the standard unit of measurement in the logging and lumber industry by which standing timber is measured and sold, and manufactured lumber is merchandised.

Saw timber:

Trees that will yield logs suitable in size and quality for the production of lumber.

Woodland:

Forest lands usually supporting open-grown, widely scattered trees of marginal merchantability, and generally more valuable for watershed or wildlife protection purposes than for the production of timber for commercial purposes.

Table 65. - Estimated area and producing capacity of public domain forest and woodlands administered by the Bureau of Land Management, June 30, 19--

A. Originating office(s)

1. Each district office will fill out a table according to the format in sample table 65.

B. Processing, consolidation, and routing

1. Each district office will submit an original to the State office, together with any copies required by the State office.
2. Each State Director will consolidate the district submissions into a State table 65 and submit an original and one clear copy to the Director, attention: 6.06b. The Chief, Division of Field Services will transmit the submission (an original and one clear copy) prepared by its Forestry Division, to the Chief, Division of Planning.
3. The Chief, Division of Forest Management will prepare a consolidated table from the submissions of the States and Division of Field Services, and submit an original and two clear copies to the Chief, Division of Planning.

C. Reporting period

1. The data should show the estimated area and producing capacity of public forest and woodlands administered by the Bureau as of June 30 of each year.

D. Source

1. Forest and woodland inventories.

^{1/} Includes the revested O&C lands under the administrative jurisdiction of this Bureau and the reconveyed Coos Bay Wagon Road lands. The acreage is for O&C lands except as footnoted in 7 and 8.

^{2/} Includes all timber greater than 11 inches dbh. Does not consider growth since completion of the inventory.

^{3/} Allowable cut is that which is permissible during the period of time required to achieve a balance of age classes in the forest stand. These data are subject to change as better inventories are obtained.

^{4/} Nondepletable timber is that timber which was not included in the inventory and usually consists of salvageable logging debris, sanitation thinnings, etc.

^{5/} Sum of preceding 2 columns.

^{6/} Includes trespasses and free uses, the volume of which is chargeable against the annual allowable cut.

^{7/} O&C lands _____ acres; CBMR lands _____ acres.

^{8/} O&C lands _____ acres; CBMR lands _____ acres.

Table 67. - Forest dispositions by type of product, 19--

A. Originating office(s)

1. Each district office, each operations office in Alaska, and the Division of Field Services in the Director's Office that took final action to effect disposition of timber or nontimber forest products during the fiscal year just ended, by any means other than trespass, will fill in a table according to the format shown in sample table 67.

B. Processing, consolidation, and routing

1. Each district and operations office will submit an original to the State office together with as many copies as may be required by the State office. The Division of Field Services in the Director's Office will submit an original and one clear copy to the Chief, Division of Planning.
2. Each State office will compile a total State table from the district and operations offices' submissions and transmit an original and one clear copy to the Director's Office, attention: 6.06b. Oregon will show O&C and PD Lands on separate lines.
3. The Chief, Division of Forest Management will compile a total Bureau table from the submissions of the district and operations offices and the Division of Field Services. He will submit an original and two clear copies to the Chief, Division of Planning.

C. Reporting period

1. Report required data on all timber (except trespass) and nontimber product disposition actions taken during the fiscal year.

D. Special instructions

1. The purpose of table 67 is to present a State by State summary of forest disposition actions taken by BLM during the fiscal year, by type of product and on both O&C and P.D. lands. If the action has been taken to effect disposition of the timber or nontimber product (contract awarded or permit issued), then the products involved are to be considered as disposed.
2. In the "Other" timber products column, list only those items which can readily be expressed in a volume unit of measure. All other products considered, timber products should be shown in the "Saw timber", "Cords", "Posts", or "Poles" columns. Convert all items shown in these five columns, that are not already converted, to M bd. ft., and enter the total in the "Total volume" column.

3. All other products not readily expressable in volume terms (such as Christmas trees) will be considered "nontimber forest products". The value of "nontimber forest products" shown in this table should equal similar data combined from tables 73 and 78 for public domain lands and tables 73 and 77 for O&C lands.
4. "Total volume" and "value" data for the "timber products" portion of table 67 should be equal to similar data shown in table 68 for O&C land and table 69 for public domain land.
5. Carry volume data to the nearest tenth of a thousand board feet or cord.
6. Do not round off dollar values - show actual computed value to the nearest cent.
7. Table 67 is a summary of similar data from tables 72, 73 and 78 for public domain lands, and tables 71, 73 and 77 for O&C lands. Each office preparing these tables will be responsible for seeing that they balance before they are forwarded to the Washington Office.

Table 68. - O&C timber dispositions by species, 19--

A. Originating office(s)

1. Each district office in Oregon that took final action to effect disposition of timber during the fiscal year, by any means other than trespass, will compile a table according to the format shown in sample table 68.

B. Processing, consolidation, and routing

1. Each district office in Oregon will submit an original to the State office together with as many copies as may be required by the State office.
2. The Oregon State Office will compile a total State table from the district offices' submissions and transmit an original and two clear copies to the Director's Office, attention: 6.06b.
3. The Chief, Division of Forest Management will review the Oregon State submission for accuracy and completeness and return the original to the Chief, Division of Planning indicating his approval thereof.

C. Reporting period

1. Report timber disposed of during the fiscal year just ended.

D. Special instructions

1. Show only "timber", by species, for which disposition action was effected during the fiscal year. Do not include timber cut in trespass, "nontimber forest products", or timber cut, in this table.
2. Carry volume data to the nearest tenth of a thousand board feet, and do not round off value data.
3. "Total" volume and value data shown in this table should be equal to the sum of the volume and value data shown in table 67 for O&C and CBWR lands.

| Pine, ponderosa----- | | | | | | | | | |
| Pine, sugar----- | | | | | | | | | |
| Total nondepletable timber-- | | | | | | | | | |
| Grand total----- | | | | | | | | | |

1/ Regular sales includes all advertised and negotiated sales, rights-of-way sales, additional sales (under terms of contract) and small sales not let under the specific provisions of the joint agreement between the Bureau of Land Management and the Small Business Administration, dated Mar. 10, 1959.

2/ All types of sales let under the terms of the Bureau of Land Management and the Small Business Administration set-aside sale agreement of Mar. 10, 1959.

Note.—This table includes data for timber sold by the Bureau of Land Management from O&C and CBMR lands during the fiscal year 19__, but the timber was not necessarily all cut, removed and paid for during the same period. Data does not include timber dispositions made by free use permit or taken in trespass; sales of other nontimber forest products are also excluded.

Depletable timber is that which has been included in the inventory. Nondepletable timber is that which has not been included in the inventory and usually consists of salvageable logging debris, sanitation thinnings, etc. In compiling this table, depletable timber is equivalent to the former "green timber" designation and nondepletable to "salvage".

SAMPLE

TABLE 71. - Timber sales on O&C lands by master unit, 19__

| District and master unit | Regular sales 1/ | | | | Set-aside sales 1/ | | | | Grand total | |
|--|------------------|--------------------------------------|--------|-------|--------------------|--------------------------------------|--------|-------|-------------|-------|
| | Volume | Percent of declared available cut 2/ | Number | Value | Volume | Percent of declared available cut 2/ | Number | Value | Volume | Value |
| | M bd.ft. | | | \$ | M bd.ft. | | | \$ | M bd.ft. | \$ |
| Cooks Bay: South Coast----- | | | | | | | | | | |
| Eugene: Siuslaw----- Upper Willamette----- Total Eugene district----- | | | | | | | | | | |
| Medford: Jackson----- Josephine----- Klamath----- Total Medford district----- | | | | | | | | | | |
| Roseburg: Douglas----- South Umpqua----- Total Roseburg district----- | | | | | | | | | | |
| Salem: Alsea-Rickreall----- Clackamas-Molalla----- Columbia----- Santiam----- Total Salem district----- Grand total----- | | | | | | | | | | |

1/ "Regular sales", as used in this table, means all timber sale actions not effected specifically under the terms of the set-aside sale agreement between the Bureau of Land Management and the Small Business Administration, dated Mar. 10, 1959. "Set-aside sales" are all actions under that agreement.

2/ Available: includes the declared allowable cut plus volume of salvage and thinning.

Note. - Data include only timber sold during the fiscal year (not necessarily cut) through advertised sales, negotiated sales, additional sales (under terms of contracts), rights-of-way sales, and contract reappraisals. Sales on non-timber forest products, and timber dispositions made under free use permits or effected through a trespass action, are excluded. Allowable cut computations are based on stated allowable cut volumes in effect at the close of the fiscal year, for O&C lands under the jurisdiction of the Bureau of Land Management as of that same date. The sale volume figures used in the percent calculation include some salvage timber, which is not ordinarily chargeable against the allowable cut.

Table 72. - Timber sales on public lands, 19--

A. Originating office(s)

1. All district offices and the Division of Field Services in the Director's Office that sold timber from public lands during the fiscal year just ended, will compile a table according to the format shown in sample table 72.

B. Processing, consolidation, and routing

1. District offices will submit an original to the State Office together with any copies required by the State office. The Division of Field Services will transmit an original and one clear copy to the Chief, Division of Planning.
2. Each State office will compile a total State table from the submissions of the district offices according to the format in sample table 72, and transmit an original and one clear copy to the Director's Office, attention: 6.06b.
3. The Chief, Division of Forest Management will prepare a consolidated Bureau table from the submissions of the States and the Division of Field Services, according to the format in sample table 72, and transmit an original and two clear copies to the Chief, Division of Planning.

C. Reporting period

1. The data in this table covers the period for the fiscal year just ended.

D. Special instructions

1. See footnotes in sample table for further detail.
2. Report all timber sold in all types of sales, including advertised, negotiated, reappraisals, addition and rights-of-way. Do not report values of volumes of timber disposed of through trespass actions or free use in this table.

| Wyoming----- | | | | | | | | | | |
| Total----- | | | | | | | | | | |

1/ "Regular sales", as used in this table, means all timber sale actions not effected specifically under the terms of the set-aside agreement between the Bureau of Land Management and the Small Business Administration, dated Mar. 10, 1959. "Set-aside sales" are all such sale actions effected under the terms of and in accord with procedures laid down by that agreement.

2/ Available: includes the declared allowable cut plus volume of salvage and thinning.

Note. - Data include only timber sold during the fiscal year (not necessarily cut) through advertised sales, negotiated sales, additional sales (under the terms of contract), rights-of-way sales, and contract reappraisals. Sales of nontimber forest products, and timber dispositions made under free use permits or effected through a trespass action, are excluded. Calculations relating sales to allowable cut are based on stated allowable cut volumes in effect at the close of the fiscal year, for public forest lands under the jurisdiction of the Bureau of Land Management as of that date. Sale volume figures used in the computation include some salvage timber, which is not ordinarily chargeable against the allowable cut.

Table 73. - Free use timber and nontimber forest products permits issued, 19--

A. Originating office(s)

1. The State offices will fill out a table according to the format shown in sample table 73 from the submissions of district offices and operations offices for table 74, Free use forest products permits issued by species, 19--

B. Processing, consolidation, and routing

1. The State offices will transmit an original and one copy of table 73 to the Director's Office, attention: 6.06b.
2. The Chief, Division of Forest Management will compile a total Bureau table 73 from the State submissions and transmit an original and two clear copies (final form) to the Chief, Division of Planning.

C. Reporting period

1. The data in table 73 should cover the period for the fiscal year just ended.

D. Special instructions

1. The "Total volume" and "Value of timber granted" data in table 73 should correspond with similar data in table 74.
2. Only number and value of "permits for nontimber forest products", should be entered in this table.

E. Source

Table 74. - Free use timber forest products permits issued by species, 19--

A. Originating office(s)

1. District offices and operations offices in Alaska will fill out a table according to the format shown in sample table 74.

B. Processing, consolidation, and routing

1. Each district office and each operations office in Alaska will submit an original to the State office, together with as many copies as may be required by the State office.
2. The State office will compile a total State table from the submissions of the district offices and operations offices according to the format shown in sample table 74, and submit an original and one clear copy to the Director's Office, attention: 6.06b. The Chief, Division of Field Services will transmit the submission of its forestry office to the Chief, Division of Planning.
3. The Chief, Division of Forest Management will compile a total Bureau table from the State submissions according to the format shown in sample table 74.

C. Reporting period

1. The data in this table should cover the period for the fiscal year just ended.

D. Special instructions

1. The data in table 74 should coincide with comparable data in table 73.
2. Includes timber forest products only, do not include "non-timber forest products".

Table 75. - Timber cut on O&C and public lands, 19--

A. Originating office(s)

1. Each district office and operations office in Alaska and the Division of Field Services in the Director's Office will fill out a table according to the format shown in sample table 75.

B. Processing, consolidation and routing

1. Each district office and each operations office will submit an original to the State office, together with any copies required by the State office. The Division of Field Services will submit an original and one clear copy to the Chief, Division of Planning.
2. The State Director will compile a consolidated State table and submit an original and one clear copy to the Director's Office, attention: 6.06b.
3. The Chief, Division of Forest Management will compile a consolidated Bureau table from the submissions of the State offices and the Division of Field Services, and transmit an original and two clear copies to the Chief, Division of Planning.

C. Reporting period

1. The data in this table should cover the period for the fiscal year just ended.

D. Special instructions

1. Report or estimate only timber actually cut during the fiscal year.
2. The purpose of this table is to convey an approximation of the gross receipts from timber cut and paid for during the fiscal year just ended.
3. See "Note" to table 75 on sample table for further clarification.

| Total----- | | | | | | | |

Footnotes:

Note. - Public Law 486, 83d Cong. approved June 24, 1954, declared controverted lands to be reverted O&C railroad grant lands but placed them under the jurisdiction of the Forest Service, U.S. Department of Agriculture. Revenues, however, are distributed according to title II of the O&C Act of Aug. 28, 1937, (50 Stat. 874), as amended. Special act lands were set aside by various acts of Congress to be administered by the Forest Service without losing their O&C identity. The lands in Benton, Clackamas, Jackson and Polk counties are watershed lands; the land in Josephine county is an administrative site.

RANGE
MGT.

PART 7

RANGE MANAGEMENT

Summary

1. The summary is to be a brief analysis of the statistical data found in PART 7 as they relate chiefly to accomplishments and developments in the Bureau's range management program during the fiscal year. (See PART 7 in the Statistical Appendix for an example of the type and style of summary referred to here).
2. This written analysis must be limited in length to one side of one typewritten page.
3. Type each paragraph using single spacing, and double-space between paragraphs. Use standard margination.
4. Capitalize the words PART and RANGE MANAGEMENT in the heading. Use arabic numerals to designate the part number.
5. Indicate the table number or numbers in which data cited in the body of the analysis appears, at the end of the sentence or paragraph in which the data are cited, using parentheses, show the appropriate table number, i.e. (table 88).
6. The summary analysis should not be written until the compilation of table in PART 7 has been completed.
7. The Chief, Division of Range Management in the Director's Office will be responsible for writing the summary analysis for PART 7 of the Statistical Appendix, and for sending it to the Chief, Division of Planning by September 1 of each year.

Definitions of terms

(A list of selected terms found in various tables in PART 7 will be defined and printed immediately following the summary analysis).

Animal unit:

A standardized unit of measurement for range livestock which is equivalent to one cow or one horse or five sheep or five goats, all over six months of age.

Animal unit month:

The amount of forage which is necessary for the complete sustenance of one animal unit for a period of one month; also, a unit of measurement of grazing privileges within grazing districts which represents the privilege of grazing one animal unit for a period of one month.

Grazing district:

An administrative subdivision of the range lands under the jurisdiction of the Bureau of Land Management, established pursuant to Section 3 of the Taylor Grazing Act, to facilitate management of their forage resources.

Grazing lease:

A lease which authorizes the use of public lands outside the grazing districts for the grazing livestock during a specified period of time.

Grazing lease lands:

Lands outside grazing districts, which are owned, leased, or otherwise controlled by the United States, are administered by the Bureau of Land Management, and are subject to leasing for grazing purposes under the Alaska Grazing Law of 1927, the Taylor Grazing Act of 1934, the O&C Act of 1937.

Grazing license:

An authorization which permits the grazing of a specified number and class of livestock on a designated area of grazing district lands for a period of time, usually not in excess of one year. Grazing licenses are issued to the applicants for grazing privileges within grazing districts as a temporary measure pending final adjudication of their applications.

Grazing permit:

An authorization which permits the grazing of a specified number and class of livestock on a designated area of grazing district lands during specified seasons each year for a period of usually 10 years. Grazing permits are issued to applicants for grazing privileges within grazing districts after final adjudication of their applications. Permits are also issued authorizing use of the public lands in Alaska for use by reindeer in accordance with the Reindeer Act of 1937 and the regulations provided in 43CFR 63.31 to 63.51.

Table 81. - Area and status of lands within grazing districts, 19--

A. Originating office(s)

1. Arizona, California, Colorado, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, and Wyoming State offices will prepare this table according to the format shown in sample table 81. The tables 11a submitted by each district office to the State office, in support of table 11 submission (see table 11 instructions in this Handbook) will be used by the State offices to prepare table 81.

B. Processing, consolidation, and routing

1. The State office will submit an original and one clear copy of table 81 to the Director, attention: 6.06b.
2. The Chief, Division of Range Management in the Director's Office will prepare a consolidated table 81 from the State submissions, and forward an original and two clear copies (final form) to the Chief, Division of Planning.

C. Reporting period

1. All acreage data shown in Table 81 should reflect the status of lands as of the last day of the fiscal year just ended.

D. Special instructions

1. The figures shown for each State in the "Vacant public lands" column in table 81 must coincide with the figures in the "Within grazing districts" column under the "Vacant public lands" heading in Table 11, Public lands under exclusive jurisdiction of the Bureau of Land Management.

E. Source

1. Compiled from data in Table 11a submitted by district and land offices.

Table 84. - Grazing permits in force on grazing district lands,
calendar year 19--

*RM only
not needed
K. H. H. H.*

A. Originating office(s)

1. Each district office will prepare a table according to the format shown in sample table 84.

B. Processing, consolidation, and routing

1. Each district office will submit an original to the State office, together with any copies required by the State office.
2. Each State office will consolidate the district submissions into a State table according to the format shown in sample table 84, and forward an original and one clear copy to the Director's Office, attention: 6.06b.
3. The Chief, Division of Range Management will consolidate the State office submissions into a total Bureau table according to the format in sample table 84 and forward an original and two clear copies to the Chief, Division of Planning.

C. Reporting period

1. Data in this table should reflect the pertinent information for the calendar year just ended.

D. Source

1. The information for this table is compiled from form 4-1137, Annual Grazing Statistical Report.

Table 96. - Weed control program accomplishments, 1952 through 19--

A. Originating office

1. The Chief, Division of Range Management in the Director's Office, will compile a table according to the format shown in sample table 96.

B. Processing, consolidation, and routing

1. The Division of Range Management will submit an original and two clear copies to the Chief, Division of Planning.

C. Reporting period

1. Data shown in this table should reflect the pertinent information for the fiscal years from 1952 through the fiscal year just ended. The table should be updated at the end of each fiscal year.

D. Special instructions

1. The data in table 96 should coincide with comparable data in table 95 for the fiscal year just ended.

E. Source

1. Table 96 is updated from data contained in table 95, Weed Control Program Accomplishments, or from Form 4-1176, Project Program Statistical Report.

RESOLUTION

PART 8

PROTECTION: FIRE & TRESPASS

Summary

1. The summary is to be a brief analysis of the statistical data found in PART 8 as they relate chiefly to accomplishments and developments in the Bureau's fire and trespass program during the fiscal year. (See PART 8 in the Statistical Appendix for an example of the type and style of summary referred to here).
2. This written analysis must be limited in length to one side of one typewritten page.
3. Type each paragraph using single spacing, and double-space between paragraphs. Use standard margination.
4. Capitalize the words PART and PROTECTION: FIRE & TRESPASS in the heading. Use arabic numerals to designate the part number.
5. Indicate the table number or numbers in which data cited in the body of the analysis appears, at the end of the sentence or paragraph in which the data are cited, using parentheses, show the appropriate table number, i.e., (table 110).
6. The summary analysis should not be written until the compilation of all tables in PART 8 has been completed.
7. The Chief, Division of Protection in the Director's Office will be responsible for writing the summary analysis for PART 8 of the Statistical Appendix, and for sending it to the Chief, Division of Planning by September 1 of each year.

Definition of terms

(A list of selected terms found in various tables in PART 8 will be defined and printed immediately following the summary analysis).

Contract fire protection:

Fire protection rendered through formal contracts with other agencies or organizations for the complete job of fire protection on lands owned, leased, or controlled by the United States which are administered by the Bureau of Land Management.

Force account fire protection:

Fire protection given lands owned, leased or controlled by the United States and administered by the Bureau of Land Management, on which complete fire protection is extended through the use of fire protection forces and facilities supervised and operated by the Bureau of Land Management.

Fire presuppression:

Fire control activities related to the organization, training, instruction, and management of the fire control improvements, equipment, and supplies to insure effective fire suppression.

Fire suppression:

Fire control activities concerned with controlling and extinguishing a fire, starting with the time the fire is discovered.

Trespass:

An unauthorized use of Federal lands and/or resources.

See Table U

Table 99. - Area burned by fires on lands administered by the
Bureau of Land Management, calendar year 19--

A. Originating office(s)

1. Each district and operations office will fill out a table according to the format shown in sample table 99.

B. Processing, consolidation, and routing

1. Each district and operations office will submit an original to the State office together with any copies required by the State office.
2. The State office will compile a consolidated State table from the district and operations offices' submissions according to the format shown in sample table 99, and forward an original and one clear copy to the Director's Office, attention: 6.06b.
3. The Chief, Division of Protection will prepare a consolidated Bureau table from the State submissions according to the format shown in sample table 99 and submit an original and two clear copies to the Chief, Division of Planning.

C. Reporting period

1. The data in this table will cover the period for the calendar year just ended.

Table 105. - Timber cut in trespass on public lands, 19--

A. Originating office(s)

1. Each district and operations office will fill out a table according to the format shown in sample table 105.

B. Processing, consolidation, and routing

1. Each district and operations office will submit an original to the State office together with any copies required by the State office.
2. The State office will prepare a consolidated State table from the district and operations offices' submissions and submit an original and one clear copy to the Director's Office, attention: 6.06b.
3. The Chief, Division of Protection will prepare a consolidated Bureau table from the State submissions and transmit an original and two clear copies to the Chief, Division of Planning.

C. Reporting period

1. The data in this table will cover the period for the fiscal year just ended.

D. Source

1. Timber trespass records

SAMPLE

TABLE 105. - Timber cut in trespass on public lands, 19

| State | Number of trespasses | Volume of timber cut | | | Value of non-timber forest products | Total value |
|-----------------|----------------------|----------------------|----------|--------------|-------------------------------------|-------------|
| | | Saw timber | Other | Total volume | | |
| Alaska----- | | M bd.ft. | M bd.ft. | M bd.ft. | \$ | \$ |
| Arizona----- | | | | | | |

Table 106. - O&C timber cut in trespass, 19--

A. Originating offices

1. Each district office in the State of Oregon will compile a table according to the format in sample table 106.

B. Processing, consolidation, and routing

1. Each district office in the State of Oregon will submit an original to the Oregon State office together with any copies required by the State office.
2. The Oregon State office will prepare a consolidated State table from the district submissions and submit an original and two clear copies to the Director's Office, attention: 6.06b.
3. The Chief, Division of Protection will review the Oregon State submission for accuracy and completeness and return the original to the Chief, Division of Planning, indicating approval thereof.

C. Reporting period

1. The data in this table will cover the period for the fiscal year just ended.

D. Special instructions

1. Under "Volume" columns show number of trespass cases involved, if any.
2. Under "Value" columns give market value of stampage.
3. Add any other footnotes necessary for clarity.

ADMIN, FINANCE, PERSONNEL.

PART 9

ADMINISTRATION, FINANCE & PERSONNEL

Summary

1. The summary is to be a brief analysis of the statistical data found in PART 9 as they relate chiefly to accomplishments and developments in the Bureau's administrative, financial and personnel management during the fiscal year. (See PART 10 in the Statistical Appendix for an example of the type and style of summary referred to here).
2. This written analysis must be limited in length to one side of one typewritten page.
3. Type each paragraph using single spacing, and double-space between paragraphs. Use standard margination.
4. Capitalize the words PART and ADMINISTRATION, FINANCE & PERSONNEL in the heading. Use arabic numerals to designate the part number.
5. Indicate the table number or numbers in which data cited in the body of the analysis appears, at the end of the sentence or paragraph in which the data are cited, using parentheses, show the appropriate table number, i.e., (table 115).
6. The summary analysis should not be written until the compilation of all tables in PART 9 has been completed.
7. The Assistant Director for Administration will be responsible for writing the summary analysis for PART 9 of the Statistical Appendix, and for sending it to the Chief, Division of Planning.

Definition of terms

(A list of selected terms found in various tables in PART 9 will be defined and printed immediately following the summary analysis).

Allocation of receipts:

Determination of monies paid, or to be paid, to other funds, counties or States out of receipts collected during the fiscal year reported, as required and/or specified by law.

Geological Survey receipts:

Receipts collected by the Geological Survey in the U. S. Department of the Interior for mineral and petroleum rentals and royalties paid under the terms of leases, licenses, and permits initially issued by the Bureau of Land Management. These receipts are subsequently deposited with the Bureau of Land Management by the Geological Survey.

Non-operating revenue:

Receipts of a miscellaneous nature, such as incidental receipts from taxes, fines, etc., which are not related specifically to or received in the process of conducting normal and regular business of the Bureau of Land Management as it pertains to the management of public lands and resources.

Obligations:

Payments, and amounts which the Government is obligated to pay for goods and services received or contracted for future delivery made from appropriations during the fiscal year indicated.

Receipts:

All monies received and credited to the proper account as required by law. Does not include collections held by the U. S. Treasury pending future determination of disposition by the Bureau of Land Management.

Reclamation fund:

A designated fund to which a portion of certain Federal receipts are allocated according to the law, and which may subsequently be used specially for land reclamation purposes when so appropriated by Congress.

Rental:

The amount paid periodically (usually annually) by the holders of a lease in payment for the right to use of the land or resources for the purposes set out in the lease.

Transferred funds:

Appropriated funds which have been made available to the Bureau of Land Management from appropriations originally made to other Bureaus and Agencies.

Tables 110-127

A. Originating office(s)

1. The Division of Budget and Finance in the Director's Office will fill in tables according to the formats in the sample tables for the following:

| | |
|------------|---|
| Table 110 | - <u>Obligations incurred, 19--</u> |
| Table 111 | - <u>Expenditures for land surveys, 19--</u> |

| ✓Table 123 | - <u>Allocations to States from mineral leasing acts receipts, February 25, 1920 to June 30, 19--</u> |
| ✓Table 124 | - <u>Allocations to States from Taylor Grazing Act, Section 3 receipts, June 28, 1934 to June 30, 19--</u> |
| ✓Table 125 | - <u>Allocations to States from Taylor Grazing Act, Section 15 receipts, June 28, 1934 to June 30, 19--</u> |
| ✓Table 126 | - <u>Allocations to counties from revested Oregon and California and reconveyed Coos Bay Wagon Road land - grant funds, June 8, 1916 to June 30, 19--</u> |
| ✓Table 127 | - <u>Amounts credited to the reclamation fund from public land sales, 1901 to 19--</u> |

B. Processing, consolidation, and routing

1. The Division of Budget and Finance will submit an original and two clear copies for each of the above tables to the Chief, Division of Planning.

C. Reporting period

1. The data in these tables covers the period for the fiscal year just ended. Tables 113, 117, 122, 123, 124, 125, 126, and 127 are cumulative tables and are to be updated at the end of each fiscal year.

D. Special instructions

1. See the Statistical Appendix for "Notes" and "Footnotes" to the above entitled tables as further clarification and guides for their use in these tables.

E. Source

| Total 1947-19__----- | | | | | 2/ | | |
| Grand total----- | | | | | | 3/ | |

^{1/} Act of Feb. 25, 1920 (41 Stat. 437, 30 U.S.C. 181 et seq.).

^{2/} Excludes \$_____ deposited in the Outer Continental Shelf escrow accounts pending Supreme Court decision.

^{3/} Before 1880, includes all receipts from sale or lease of public lands and resources. After 1880 includes sales of Indian lands, grazing revenues, rental of land, mineral leasing under special laws, and other miscellaneous sources.

Note.-Includes the collections of the General Land Office and its predecessor organizations (1785-1946), the Grazing Service (1934-1946), and the Bureau of Land Management (1947-19__). For annual data 1881-1946, see BLM reports for 1946 and 1958.

- 1/ Except in Alaska where 90 percent is distributed to the state and 10 percent to the General Fund.
- 2/ Revenues from mineral and grazing activities with the exception of range improvement fees are transferred to and distributed by the agency having jurisdiction over the surface of the lands.
- 3/ One-third of this amount is for access roads and reforestation, the counties receiving at least 50 percent of the gross receipts.
- 4/ Available for payments to counties in lieu of taxes. Any surplus after each 10-year period is covered into the General Fund of the Treasury.
- 5/ Distribution made after deduction for reimbursable expenses.
- 6/ One-half of this amount is made available for range improvements.
- 7/ Distribution made after deduction of 25 percent of gross receipts which is made available for range improvements.
- 8/ One-third of this amount is made available for range improvement.

Tables 128 - 135

A. Originating office(s)

1. The Division of Personnel in the Director's Office will fill in tables according to the formats in the sample tables for the following:

Table 128 - Total number of paid employees, October 31, 19--

Table 129 - Average permanent and seasonal employment, calendar year, 19--

Table 130 - Geographic distribution of employment as of December 31, 19--

~~Table 131 - Voluntary quit rate, calendar year 19--~~ //

Table 132 - Accessions and separations rate, calendar year 19--

Table 133 - Number of employee injuries, calendar years (three years just ended).

Table 134 - Number of employee injuries by major occupational groups, calendar years (three years just ended)

Table 135 - Estimated accident cost, calendar year 19--

B. Processing, consolidation, and routing

1. The Division of Personnel will submit an original and two clear copies for each of the above tables to the Chief, Division of Planning.

C. Reporting period

1. The data in these tables covers the period(s) as indicated in the titles.

D. Special instructions

1. See the Statistical Appendix for "Notes" and "Footnotes" to the above entitled tables as further clarification and guides for their use in these tables.

E. Source

1. See sample tables.
